

July 15, 2020

Sam Dominguez with O Solar Mio, LLC installed our solar system. The installation was completed within two weeks as we also installed new air conditioning duct work.

Sam answered all of our questions in detail. Sam is very knowledgeable and professional. Scott and I are extremely pleased with our solar system and AC duct work.

Prior to our solar system, our PG&E was running in the winter time \$400 to \$600 a month and in summer \$600 to \$800 a month. Going through the PACE program was the best investment we ever made. PG&E bill now \$3.00 in July hot summers. Love it!!

Thank you Solar Sam,

Blessings,

Scott and Karen C.
