RE: Your request for a reference letter

To whom it may concern:

I have been doing business with Mr. Dominguez for years. His other company, Safe And Secure Systems, handles the CCTV system at my supermarket in Kerman, CA.

Through his solar business, O Solar Mio, he has sold and installed solar systems on my personal residence and on my 4 rental homes all financed with PACE loans.

Mr. Dominguez makes clear and informative presentations. Everything he said turned out to be truthful. I am considering placing solar on my business locations also.

I referred a customer to him and he paid me the \$1000 referral fee just as promised.

Respectfully,

Guadalupe F.
